**Detention/Retention Manual – Draft Review**

Justin Turner asked if the District has authority to regulate non-regulatory flows. Eric Shepp stated that the state law provides Districts the authority to regulate floodplains, which is an area inundated by flooding from a 100-year storm. The Board limits the Districts permitting requirements for development along watercourses that have discharges of less than 100 cfs (the Board could have chosen 50 cfs or any other number), but requires certain developments (commercial and subdivisions) to mitigate the adverse impact of all increased offsite flows. Mr. Turner stated that he will provide his comments to the District in writing.

The District is waiting for SAHBA’s comments.

Discussions/review will continue in April.
