PIMA COUNTY REGIONAL FLOOD CONTROL DISTRICT 201 NORTH STONE AVENUE, FOURTH FLOOR TUCSON, ARIZONA 85701-1207

SUZANNE SHIELDS DIRECTOR May 12, 2006 PHONE: (520) 740-6350 FAX: (520) 740-6749

Felipe Lujan 6380 S. South Arrow Tucson, AZ 85757

Subject:

Notice of Opportunity to Correct

Complaint Number: 06-090—6380 S. South Arrow

Dear Mr. Lujan:

Field representatives of the Floodplain Management Division of the Pima County Regional Flood Control District ("Floodplain") recently observed that the air conditioning unit that serves the residence on this property has been constructed too low. Section 16.26.050.D of the Floodplain and Erosion Hazard Management Ordinance (Ordinance) states that "Service equipment such as electrical and heating equipment shall be constructed at or above the regulatory flood elevation for the particular area or be adequately flood-proofed." The regulatory flood elevation at your residence is 2 feet above highest natural grade and is the same elevation as the bottom of the lowest horizontal structural member of your manufactured home. In addition, this requirement was stated as a condition in the floodplain use permit for your residence (Permit #04-244). Non-compliance the provisions of the Ordinance or to terms and conditions of your permit constitute a violation pursuant to 16.64.010 of the Ordinance.

In order to achieve compliance with the Ordinance and the terms and conditions of the permit, Floodplain requires that you respond within 30 days from the date of this letter and complete the following:

- 1) Elevate the air conditioning unit to the regulatory flood elevation, which is equivalent to the bottom of the lowest horizontal structural member of your manufactured home, OR
- 2) Flood-proof the air conditioning unit to the regulatory flood elevation, which is equivalent to the bottom of the lowest horizontal structural member of your manufactured home, AND
- 3) Document which method you chose and provide that documentation to Floodplain. This documentation can include photographic information, construction contractor receipts, etc.

Another site visit will be performed in 30 days in order to assess the status of these issues. Failure to respond could lead to more formal enforcement action.

If you have any questions regarding this letter or would like to schedule a meeting, please contact our office at 740-6350. Thank you for your cooperation.

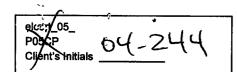

Sincerely,

Eric Shepp, P.E. Manager

Floodplain Management Division
